

SCIENTIST: CELL BIOLOGIST EXPERT IN FLOW CYTOMETRY

Full-time assignment with attractive salary, start date foreseen ~ September 2015

ESSENTIAL JOB FUNCTIONS

- Establish and operate flow cytometry evaluations on clinical samples to validate biomarkers
- Conduct bioanalytical method validation work and perform sample analysis
- Drafting of protocols, operating procedures, bioanalytical study plans and study reports
- Involvement in maintenance of equipment, consumables and reagents stock management

MINIMUM REQUIREMENTS

- Master's degree or PhD with at least 1 year of experience with flow cytometry immunoassays or Bachelor's degree with at least 2 years of relevant work experience
- Experienced in conducting flow cytometry immune assays, preferably on a Navios system
- Experience of working in a laboratory with a defined quality system
- Fluent English
- Advanced use of MS office programs: Word, Excel, PowerPoint
- Ability to work in a team
- Flexibility according to project deadlines

PREFERRED EXPERIENCE

- Experience with other cellular assay techniques like Elispot would be an advantage
- Experience in working with human samples and isolating human PBMC
- Experience in immuno-assays (ELISA, MSD, Singulex) techniques is also appreciated
- Work experience in a GLP, GCLP regulated environment
